Flexi-Clad

Versatile Pad Frame For Precise Installation

The Flexi-Clad is a versatile vacuum lifter with the ability to lift horizontal, vertical and roofing panels up to 400kg.

The Flexi-Clad can be configured to suit varying panel lengths, handling horizontal wall panels up to 8m, roofing panels up to 16m and vertical panels up to 18m.
Customers choose this dual circuit lifter as a safer, quicker and more effective way to install cladding panels on site.

Safe Working Load

Type Of Suction Cup	Angle of Panel to be lifted	
	0° to 10°	10° to 90°
8 round Ø 250mm	350kg	250kg
12 round Ø 250mm	400kg	400kg
8 oval 100mm x 320mm	200kg	130kg
12 oval 100mm x 320mm	300kg	200kg

Key Features

- Capacity: 400kg

- Suitable for roof panels up to 16m, vertical wall panels up to 18m and horizontal wall panels up to 8m

- Dual circuit vacuum system with vacuum gauge, reserve tank and non-return valve for each circuit

- 90° manual tilt

- 110/240v external charger system

- Audio-visual low vacuum warning

- On-board control panel and suction release

Optional secondary safety straps
