

CMP14

14m working height

Platform height 12m

CMP14

CMP14 aerial work platform has a maximum working height of 14 metres. With its high strength aluminium twin mast and heavy duty lifting chains, its robust steel chassis ensures safe lifting and lowering with a maximum load capacity of 200kg.

The large platform is made of aluminium alloy, providing workers with plenty of space to perform a variety of work at height. CMP14 aerial work platform is equipped with a dual control system that allows the operator to control the platform up and down while standing on the platform or on the ground.

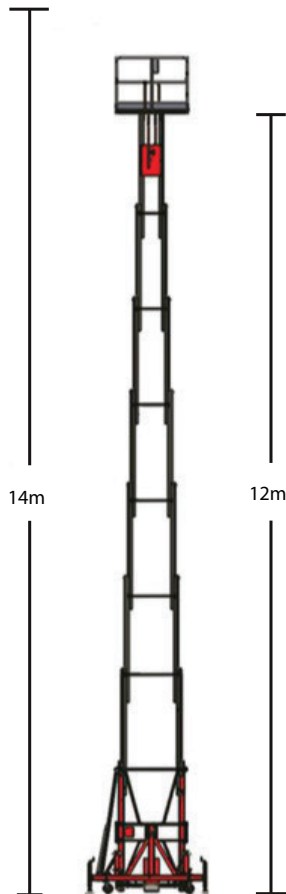

Technical Specifications

| | |
|----------------------------|---------------|
| Max. working height | 14 m |
| Max. Platform height | 12 m |
| Lift capacity | 200 kg |
| Platform Size | 1.5x0.7x1.1 m |
| Overall length | 1.6m |
| Width | 0.8m |
| Stowed height | 1.98m |
| Outrigger expansion | 2.5x2.1 m |
| Minimum ground clearance | 0.04m |
| Power unit (AC) | 220V / 1.5 kw |
| Power unit (DC) | 12VDC / 1.6kw |
| Battery | 12V/ 120Ah |
| Charger | 12V / 15A |
| Caster (front wheels) | 8 in |
| Caster (rear wheels) | 8 in |
| Stowed size after rotation | / |
| Weight | 1100 kg |
