

496 Plate Glass Trolley [ACT30]

700kg

Safe Working Load

High Mobility, Remarkable Safety

Transport thick glass panes, insulation panels and shop windows up to 40mm thick with this handy Window & Plate Glass Trolley 496.

This flexible trolley is fully adjustable between 2500mm and 4000mm to accommodate different load sizes. It can easily handle glass plates and window panes 6000mm long and weighing up to 700kg.

The chassis steers from each end for better control and mobility. The glass load is held securely in place with flip-switch vacuum cups that are height adjustable on 1950mm high support rods.
